

Squirt Gun Painting!

MATERIALS NEEDED

- Squirt Gun
- Water
- Sheet Of Paper
- Plastic Cup (or paper)
- Watercolor Paint Tab
- Popsicle Stick

ESTIMATED TIME: 10-15 min

STEPS

1. Fill a cup halfway with water.
2. Drop your watercolor paint tab in the water.
3. Using your popsicle stick, mix them together! This might take awhile, so listen to some music while you do this!
4. After several minutes, your mixture should be ready.
5. Carefully pour your paint mixture in the squirt gun until it's full.
6. Go outside so you don't make a mess. Place your paper on the ground. (if it's windy put something heavy like a rock on it so it doesn't fly away.)
7. Go ahead and start blasting that paper!
8. Once the paper dries off, pick it up and go show it off!
