

# Creepy-Crawlers!

## MATERIALS NEEDED

- Egg Carton
- Scissors
- Googly Eyes
- Pipe Cleaners
- Push Pin
- Markers

**ESTIMATED TIME: 10-15 min**

## STEPS

1. Cut out one egg holder from the egg carton.
2. Decorate the egg holder with markers! Add whatever creepy or crawlle design you want!
3. Put the googly eyes on where you want the face to be.
4. Above the googly eyes make two separate holes with your push pin.  
(Be careful, ask an adult for help on this part.)
5. Place one of your pipe cleaners through the holes to make an antenna!  
(If the antennas are too long, cut your pipe cleaner with some scissors.)
6. Near the bottom of your egg holder, make holes for the legs.
7. Make two holes on the left side of the holder, & two holes on the right side.
8. Run a pipe cleaner through each hole to make the legs!  
(Be very careful with this part, you could accidentally rip the cardboard)
9. Ta-da! You have your own creepy crawler. Why don't you give it a name?!?
